

When Can I Leave the Home or Go Back to Work?

I tested negative for COVID-19.

- You may return to work when you are asymptomatic for 24 hours. This applies even if you tested positive for influenza.

I tested positive for COVID-19.

- You should remain at home for at least 10 days have passed since the symptoms first appeared **AND**
 - at least 3 days have passed since recovery, which is defined as being fever-free without the use of fever-reducing medications, and your symptoms are improving

I recently had a fever, cough, or shortness of breath, but I did NOT get tested for COVID-19.

- You should stay at home for at least 10 days have passed since the symptoms first appeared **AND**
 - at least 3 days have passed since recovery, which is defined as being fever-free without the use of fever-reducing medications, and your symptoms are improving

I had close contact with someone who tested positive for COVID-19.

- You should stay home for 14 days from the last day of exposure
